

factored into the calculation for the fee determination.

(3) An eligible organization with a risk contract's pro rata share of the annual fee is determined based upon the organization's monthly calculated Medicare payment amount during the preceding nine consecutive months beginning with January. HCFA calculates each monthly pro rata share for an organization by multiplying the established BBA fee percentage by the total monthly calculated Medicare payment amount to plans as recorded in HCFA's payment system on the first day of the month.

(4) HCFA offsets the fees against the organization's monthly Medicare payment. Beginning with the January payment, HCFA withholds the organization's share of fees and deducts the amount from the total payment made by HCFA to the organization for that month. HCFA will stop collecting the FY 1998 BBA fee from eligible plans when \$95 million has been assessed.

(5) Should delays occur in determining the amount of fees specified in paragraph (h)(1) of this section or the fee percentage rate specified in paragraph (h)(2) HCFA may adjust the assessment time period and fee percentage amount.
